

April is Occupational Therapy Month

www.promoteOT.com

Making the Impossible, Possible.

Support independence and safety through home modifications and fall prevention.
Improve quality of life for those with dementia by modifying the environment and specific stressors.
Enhance function through rehabilitation after stroke, surgery, or other medical incidents.
Support leisure activities by helping to compensate for conditions like low vision or diabetes.

Occupational Therapists work together with you to help improve or maintain your ability to perform daily activities and reach your goals for getting back to your life.

For more information about therapy services,
